

Raise Funds For Logan

The Highland dancing community in Scotland is “flinging” itself into fund raising for Logan, the four-year-old son of four times World Champion Gareth Mitchelson.

Logan has recently been diagnosed with Duchenne Muscular Dystrophy, a progressive, muscle-wasting disease which leaves sufferers unable to move unaided by the time they reach their early teens, and often leads to death in the late teens.

By raffling Logan's Bear, you can make a real difference to a little boy's life. Highland dancing is not a team sport, but this is one occasion when we should all pull together.

We hope that all our friends in Highland dancing all over the world will join us in our efforts to help Logan and his family.

All funds raised will be put into a trust-fund for Logan to meet the costs associated with his future care and well-being.
